Objective/Summary

I am a Bachelor of Science (BSc) student in Computer Science with a strong interest in software and web development. Recently, I have started exploring web development, focusing on building functional and engaging projects.

I have a foundational understanding of MySQL for database management and Java for project development. Additionally, I am familiar with Python, particularly in Object-Oriented Programming (OOP), which allows me to write clean, modular, and reusable code.

As I continue learning and growing, I aim to strengthen my skills in web technologies and backend development while contributing to meaningful projects.
